# IRRITATING STICK

JALECO

## **WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.**

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

## **WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

## **HANDLING YOUR PLAYSTATION DISC:**

- This compact disc is intended for use only with the PlayStation game console.
- Do not bend it, crush it or submerge it in liquids
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

# SETTING UP YOUR GAME

Set up your PlayStation® game console according to the instructions in its Instruction Manual. Make sure the power is off before inserting or removing a compact disc. Insert the Irritating Stick disc and close the disc cover. Insert game controllers and turn on the PlayStation game console. Follow on-screen instructions to start a game.

## HOW TO PLAY: ARE YOU READY FOR THE CHALLENGE?

Based on the wildly popular segment of the Japanese television show, **Uchan Nanchan's Blazing Challenger**, the object of Irritating Stick is to traverse a three-dimensional labyrinth. Sounds easy, eh? Well think again! The maze is electrically charged and will deliver a good "shock" if you touch any of the edges. Keep in mind folks, just to make things really interesting we've placed a time limit on each of the mazes. Run out of time and you'll have to settle for mere consolation prizes.

## THE SCREEN DISPLAY

## VIEWING YOUR CURRENT POSITION

Press and hold the **▲** button and use the **DIRECTIONAL** buttons or left analog stick to view your current position from different angles. Just remember, the countdown clock is ticking so don't spend too much time looking around!

## MAIN MENU

Choose from a variety of play modes: 1P PLAY, VS. PLAY (Two-player race), TOURNAMENT, COURSE EDIT, and OPTION.

## 1P PLAY

A single player mode where you can attempt to traverse over 100 courses including reproductions of actual courses used in the original Japanese television show. A second player can join in at any time by pressing the START button on Controller Two.

## VS. PLAY

There's wonderful fun just waiting to be had! Vs. Play is a two-player "race" through the courses. The first contestant to complete the course wins! Lose all your sticks and it's "game over". Results are displayed at the end of each game. There are a few variations in Vs. Play. Let's take a look...

## **Handicap**

Changes the diameter (size) of your stick and the number of sticks available.

## **Vs. Course Edit**

When set to ON, courses can be edited exclusively for VS. Play. When Vs. Course Edit is set to ON, players design their opponent's course. Contestants can only select from a limited range of course sections. Earn points in 1P Play mode to unlock new course sections. Refer to Course Edit mode for additional information.

## **Irritant Select**

Activate the use of Irritants. See Irritants for more information.

## **Irritant Icons**

Activates the use of Irritant Icons. See Irritant Icons for more information.

## **Penalty Game**

Activates the penalty game. See Penalty Game for more information.

# ***IRRITANTS***

In Vs. Play mode, Irritants can be your best friend or your worst enemy. To use Irritants set the Irritant option to ON, then select one of the four irritants: Hallucination, Spot Light, Inertia and Crazy Camera. Use these as weapons to slow down, confuse, or just plain irritate your opponent.

## **Hallucination**

Wait! There's three sticks. No? Four? Watch the one in the middle.

## **Spot Light**

Shut the lights off on your opponent. Only the immediate area around your victim's stick is visible.

## **Inertia**

A stick in motion will stay in motion until its velocity is reduced by friction or an electrically charged wall.

## **Crazy Camera**

With great power comes great responsibility! This is the most irritating and annoying of the Irritants.

# *IRRITANT ICONS*

When switched ON, Irritant Icons appear throughout the course at random. Activate an Irritant Icon by touching it with your stick. Let's take a look at the four Irritant Icons you may encounter.

### **Time - 3**

Three seconds are subtracted from your opponent's remaining time.

### **Big**

Touch this icon and your opponent's stick becomes really big!

### **+1**

Hey! You get an extra stick! Awesome.

### **Blank**

Absolutely nothing happens.

## PENALTY GAME

When set to ON, losers must suffer the consequences and follow the commands of the Wheel of Fate. Press the **X** button to spin the wheel. Press the **X** button a second time to stop the wheel. You're on the honor system here. We're appealing to your good nature as human beings to carry out your punishment properly.

## PENALTY GAME EDITOR

Customize the misfortune of others by selecting the Penalty Game Editor. Up to 32 alphanumeric characters can be displayed. New penalties can be saved to a Memory card.

### Number Select

Press L1/R1 to select a penalty number.

### Penalty

The penalty assigned to the number you chose at Number Select.

### Characters

Enter your penalty message.

## TOURNAMENT

A great way to have fun at parties! Up to eight courageous contestants vie for top honors. Tournament mode is identical to the play in Vs. Play mode except contestants are placed into "playoff brackets". When the Penalty Game is set to ON, the tournament will determine the worst player. If the Penalty Game is switched OFF, Tournament mode will determine a champion.

To begin Tournament play, enter the number of contestants. A minimum of three contestants is required. Up to eight contestants can play. After selecting the number of players, press the START button.

After entering the number of contestants, the Tournament Option Menu appears. The options are similar to the ones available in Vs. Play, and include: Irritant Select, Irritant Icons and Penalty Game. For an explanation of these options, refer to the Vs. Play section in this manual.

Select a course. After making your choice, the contestant's names are shuffled and placed into tournament brackets. If the Irritant Select mode was set ON, select an Irritant.

Results are displayed at the end of a tournament.

## COURSE EDIT

Construct or modify up to four courses. With 40 Course Sections and Obstacles and over 20 amazing Event Parts you can create a huge variety of mazes. Earn new Event Parts by clearing courses in 1P Play mode. To begin editing, select a course using the DIRECTIONAL buttons and confirm your selection with the **X** button.

## Course Edit Controls

DIRECTIONAL BUTTONS — scroll through options

ANALOG CONTROL — scroll through options

✕ — select section of course

● — cancel previous selection

▲ — return to previous menu

START — end course edit

L1/R1 — scroll through course edit parts menu

L2/R2 — scroll through course edit machines

Located on the upper right hand corner of the screen is the course section menu. Use the L1 and R1 buttons to scroll through your wonderful choices. Below that menu are the amazing obstacles. Use the L2 and R2 buttons to scroll through selections. The edited course appears on the left-hand side of the screen.

FUNHOUSE 55

MR. ROBOT 60

?100

PUCKS 60

MRS. ROBOT 60

GONDOLA 60

? 55

? 60

These Event Parts are not assigned a point value and cannot be used in Vs. Edit mode.

**BLOCKS**

**MOVING HAIRPIN**

**GUILLOTINE**

**BIG WINDMILL**

**COWARDS CURVE**

## *OPTION MENU*

### **Difficulty**

The Difficulty setting adjusts the time limit, as well as the diameter and number of sticks.

### **Sound**

Select Sound to toggle between stereo and monaural output.

### **Announcer**

Is he getting on your nerves? Select OFF to shut him up!

### **Volume**

Adjust sound effect (SE) and background music volumes (BGM).

### **Screen Position**

Some televisions will crop the image it displays. To compensate for this, select Screen Position to adjust the horizontal (Left/Right) and vertical (Up/Down) positions of the display.

### **Viewpoint**

Adjust the viewable area of the maze on-screen.

### **Key Config**

Press the **X** button to configure the controller's button functions. Use the DIRECTIONAL buttons to scroll through the functions. Assign functions by pressing the desired button.

### **Vibration Mode**

Select Vibration Mode to toggle vibration ON or OFF. (For Dual Shock™ controllers only.)

### **Penalty Game Editor**

Use this editor to create your own penalties for the Wheel of Fate, when penalty mode is on. Use the DIRECTIONAL buttons to scroll through the alphanumeric characters. Press **X** to enter a character. To view all of the penalties, use the **■** button. Penalties can be activated only in Vs. Play and Tournament modes.

### **Memory Card**

Save and Load Irritating Stick game data. See the sections, Saving Your Game and Loading a Saved Game for additional information.

## LET'S TAKE A LOOK AT THE COURSES!

The three TV courses are based on the wildly popular segment of the Japanese television show, Uchan Nanchan's Blazing Challenger, these courses are authentic reproductions of actual courses used on the show. The third and final course, Revenge, only appears after clearing the Challenge and Final courses. Watch out for Mr. Robot!

The four Arcade courses are set at different levels of difficulty: Elementary, Intermediate, Advanced, and Ultra. The Ultra course appears only after the previous three courses are cleared.

See if you can complete courses of your own design in the Edit courses.  
See Couse Edit for more information.

The Artificial Intelligence courses adjust their degree of difficulty for your level of expertise.

## ***SAVING YOUR GAME***

You'll need a Memory Card (sold separately) to save your data. Make sure your Memory Card is properly inserted into Memory Card Slot 1. To save your game, press START, then follow the on-screen instructions.

## ***LOADING A SAVED GAME***

Make sure that the Memory Card with your Irritating Stick game data is properly inserted into Memory Card Slot 1. Select Memory Card from the Option Menu, then follow the on-screen prompts.
